

Partnership Opportunities

The Oklahoma State Science and Engineering Fair (OSSEF) is a platform for student researchers (grades 6–12) to meet with professional scientists and engineers and communicate their authentic research.

OSSEF 2025 event will be held March 7th.

OSSEF projects span all STEM disciplines from behavioral sciences to engineering to microbiology, and beyond! Each year, hundreds of students from dozens of schools across the state participate.

OSSEF coordinates with 8 Oklahoma regional fairs and sends Oklahoma students to compete at ISEF, the largest pre-college science competition in the world.

Volunteer & Judging Partners

STEM professionals in your organization can judge or volunteer at OSSEF, as part of a team outing or community engagement opportunity for your organization. Training is provided.

An investment in future scientists and engineers

Recruitment

Connecting outstanding STEM students with leaders in industry and education

Recognition

Elevating outstanding research efforts across Oklahoma

Service

Supporting hands-on education in Oklahoma schools

Sponsorship Opportunities & Benefits

	Platinum Sponsor \$25,000	Gold Sponsor \$15,000	Silver Sponsor \$5,000	Bronze Sponsor \$1,000
Opportunity to Address Awards Audience				
Exhibit Table Space & Premiere Signage				
Exhibit Table Space				
Provide Promotional Items to Attendees				
Invitation to Awards Ceremony				
Logo and Link on Website and Program				
Listing on Website and Program				

Additional Opportunities

Category Sponsor - \$1,500 (20 available)

Recognize outstanding projects in a category that aligns with your organization's focus by supporting monetary prizes, awards, and associated needs for top competitors.

Special Awards

Customize an award to recognize projects or students whose research or experience aligns with your mission or special interests. Awards can include certificates, and/or monetary gifts or scholarships, and more.

International Fair Sponsor - \$25,000 (1 available)

Support the top OSSEF projects to present their research and represent Oklahoma at the Regeneron International Science and Engineering Fair (ISEF).

School Success Partners - \$1,000

Assist middle and high school educators new to science fairs by providing stipends for reaching milestones and funding to offset science fair expenses.

In-Kind Support Ideas

Two-way radios for event communication, catering, photography/videography, office and award supplies, grant writing services, computer equipment (laptops, ipads/tablets), professional development workshops, door prizes for student and teacher giveaways, project management consultant, graphic design services, etc. The opportunities are limitless!
