

# HONR 1000

## Judging U: A Practicum in Science Fairs

**Description:** This is a service-oriented course to prepare students to become leaders in the Science and Engineering Fair program for the state of Oklahoma. Not a science major? Not a problem. Students learn the history of regional and state science fair competitions which serve as pipelines to the prestigious Intel International Science and Engineering Fair (ISEF). The course prepares students to serve as judges for the seven regional fairs in Oklahoma and as lead event-staff volunteers for the Oklahoma State Science and Engineering Fair competition. Join a team that makes a difference in the lives of academically oriented students across Oklahoma!

### Why take this course?

- ▶ Qualifies you to judge state and local science fairs (future experiential credit).
- ▶ Opportunities to travel in Oklahoma and work with future scholars around the state.
- ▶ Hands on experience with K-12 education.
- ▶ Counts as a Seminar and for the Honors STEM requirement.

**Meetings:** Spring 2019 - T 6:45- 9:30

**CRN:** 30277
